Professional Summary

Distinguished technology leader with 21+ years driving innovative, secure, and scalable data architectures across health-tech, retail, and finance. Renowned for deep Azure cloud expertise, hands-on Cosmos DB, Microsoft Synapse, and data governance work. Proven success leading digital transformation, multi-cloud solutions, and high-compliance data environments.

"He is a Platinum Star candidate! His mastery in Azure cloud data architecture—with standout Cosmos DB, Synapse, and governance experience—sets him apart. Proven leadership in Fortune 100 projects, rapid digital innovations, and deep industry compliance make him the ideal choice for complex, mission-critical data ecosystems."
